Objective setting Approval-Dotted line Manager and Reporting Manager		08-03-24	15-03-24

Introduction of PMS

Performance management is a systematic process that organizations use to optimize their employees' performance and achieve their strategic objectives. It involves setting clear expectations, monitoring progress, providing feedback, and taking corrective actions to enhance individual and team performance.

A performance management system (PMS) is aligning employee goals with organizational goals, setting expectations, providing feedback, and evaluating performance. It is a continuous process that helps employees to improve their performance and achieve their goals.

Managers and their teams are jointly accountable for results and are jointly involved in agreeing on what they need to do and how they need to do it, monitoring performance, and taking action. All employees undergo performance review and consideration for merit pay increases or promotions as warranted.

Key Components of a PMS

Effective performance management contributes to several benefits for organizations, such as improved employee productivity, increased employee engagement, alignment with organizational goals, and better decision-making based on data-driven insights. It also supports a culture of continuous learning and development, which helps employees and organizations adapt to changing business environments.

Objective Setting

Performance management starts with setting clear and specific goals and objectives for individuals, teams, and the organization as a whole. These goals should be aligned with the organization's mission, vision, and strategic priorities.

Performance Planning

Once goals are established, performance planning involves outlining the strategies, actions, and resources required to achieve those goals. This phase may also include identifying key performance indicators (KPIs) to measure progress.

Performance Monitoring

Continuous monitoring of employee and organizational performance is crucial. This can involve regular check-ins, progress reports, and data collection on KPIs. Supervisors and managers play a significant role in this phase by observing, documenting, and assessing performance.

Feedback and Evaluation

Providing constructive feedback is essential in helping employees understand how well they are performing and where improvements are needed. Feedback can be given through formal performance reviews or informal discussions. Evaluations are often based on a combination of quantitative data (such as KPIs) and qualitative assessments.

Key Components of a PMS

Development and Training

Performance management includes supporting employees in their development by offering training, coaching, and mentoring to enhance their skills and capabilities. It emphasizes continuous learning and skill improvement.

Recognition and Rewards

Recognizing and rewarding exceptional performance is integral to performance management. Rewards can take various forms, including financial incentives, promotions, or non-monetary recognition. This helps motivate and engage employees.

Performance Appraisal

Many organizations conduct formal performance appraisals at regular intervals, often annually. During these reviews, employees and managers discuss past performance, set new goals, and develop plans for improvement.

Feedback Loops

Performance management is an ongoing process. It involves revisiting goals and performance plans regularly, adjusting them as necessary, and maintaining open lines of communication between employees and managers.

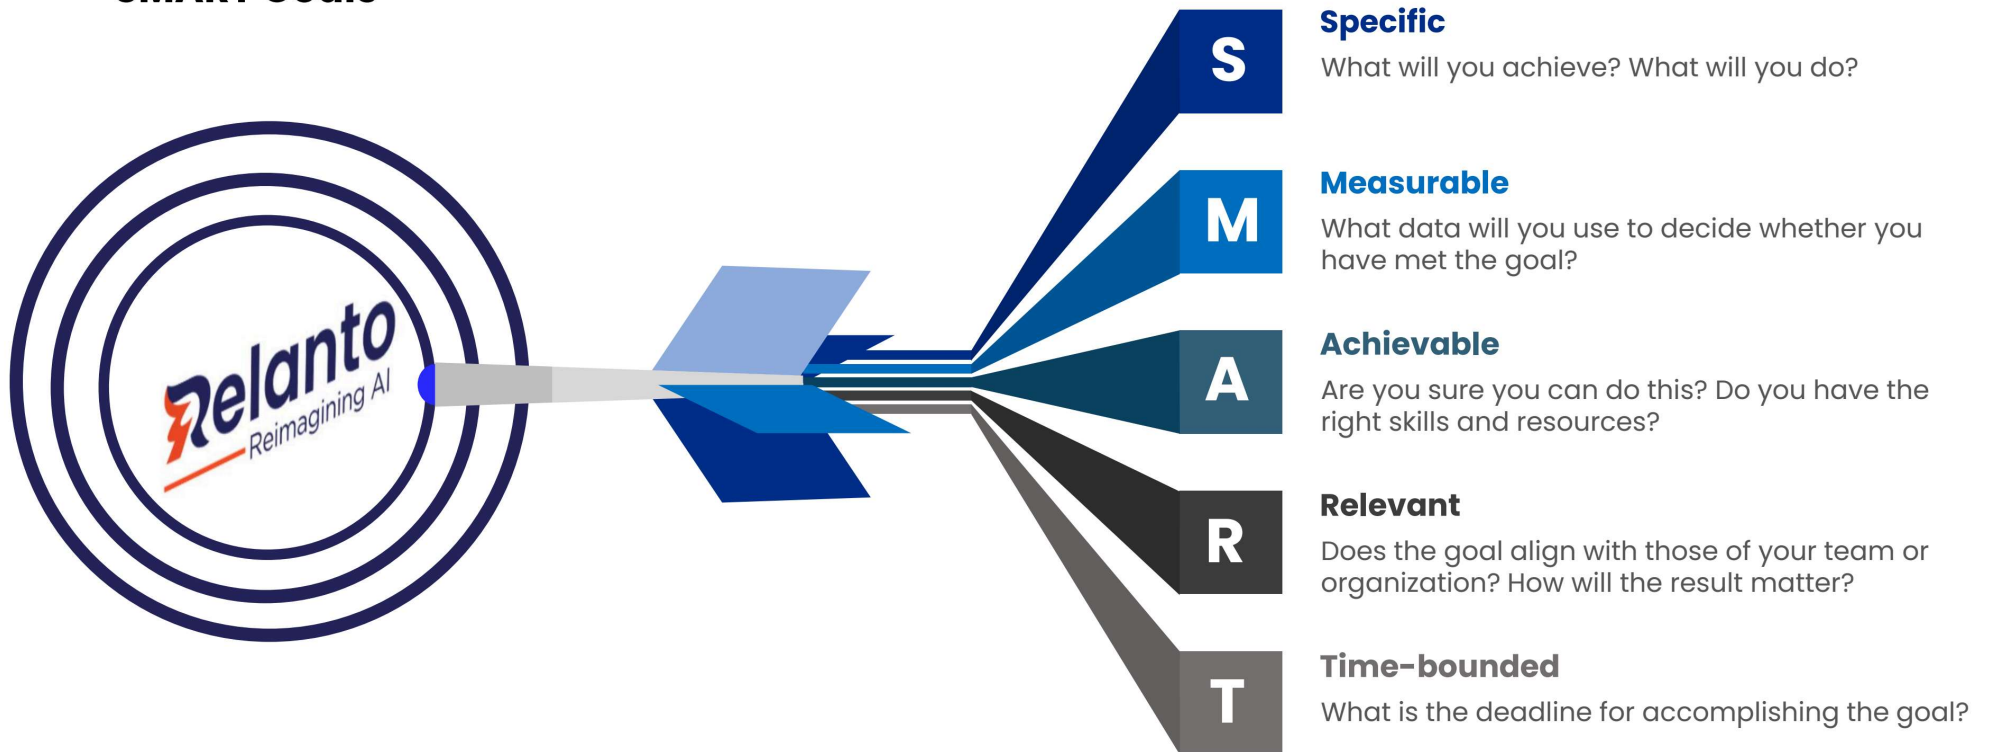

Documentation

Proper documentation of performance-related matters is crucial for legal and organizational purposes. This includes keeping records of goal setting, feedback, evaluations, and any performance improvement plans.

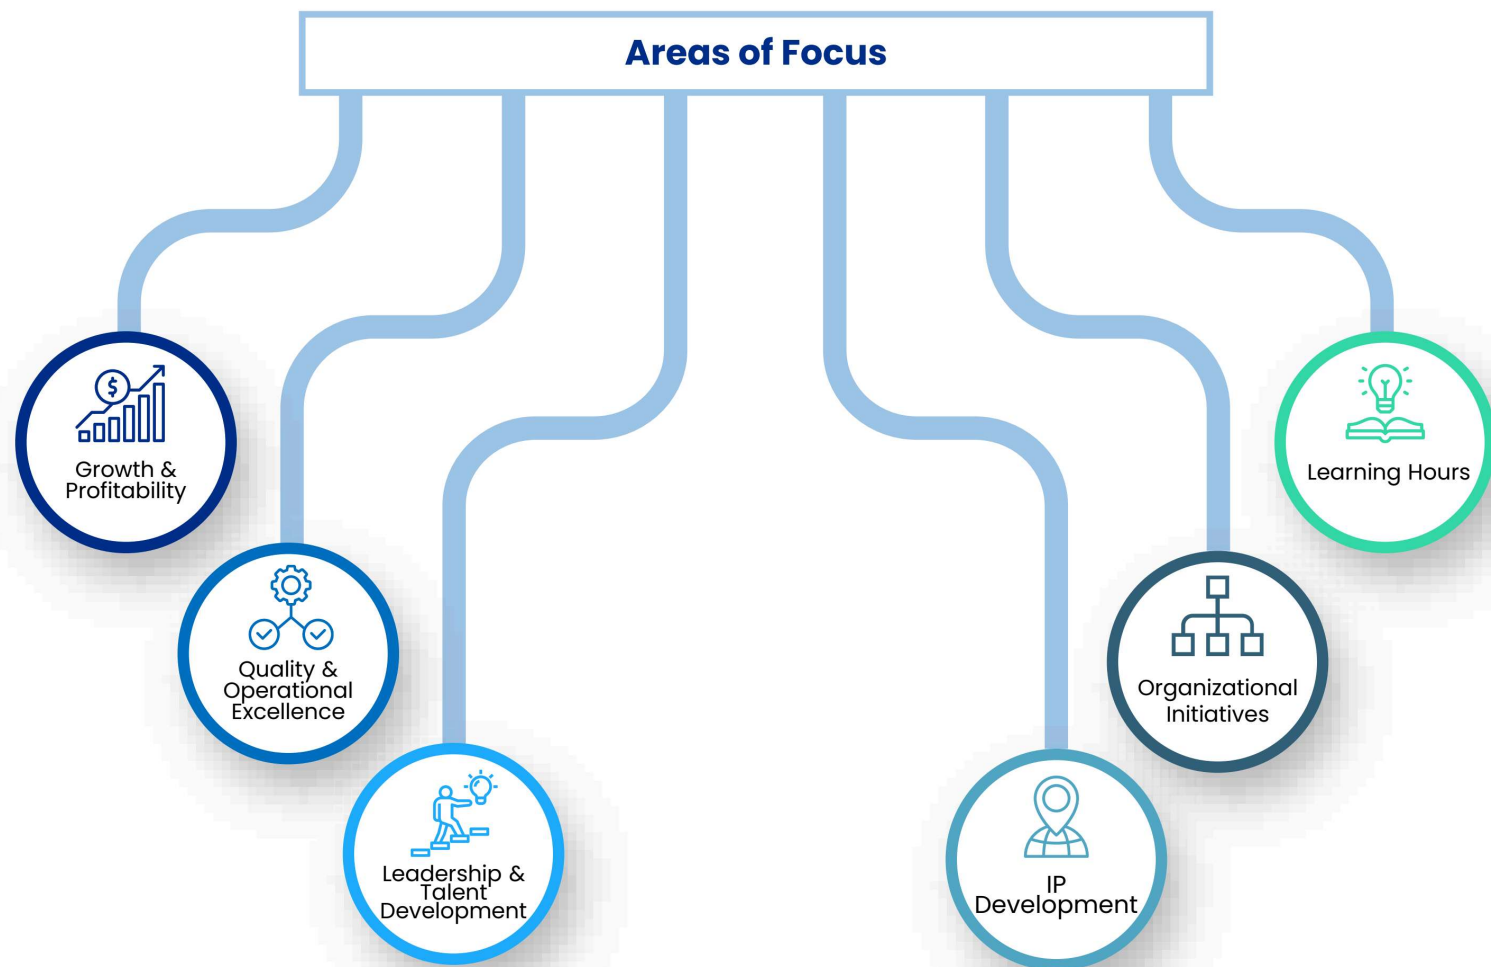

How to write Objectives

Employees are to have a Pre-dialogue goal conversation with their reporting managers and set the SMART goals.

SMART Goals

Objectives at Relanto

Evaluation Period

Eligibility for PMS Cycle FY2024

- Relanto's Performance Review will happen half-yearly.
- Relanto's Appraisal cycle will be conducted half-yearly in the months of July & and January.
- The employee should be confirmed and completed 10 months in the company to be eligible for appraisal.
e.g.:
 1. The employee joins on January 1st, 2024, they complete their 6-month probation period by July 1st, 2024.
 2. They will have completed 10 months by November 1st, 2024.
- In this scenario, the employee would be eligible for a salary revision or promotion according to the company's policies as of the January 2025 appraisal cycle. This means that their performance and eligibility for any salary increase, or promotion would be assessed during the January 2025 appraisal process.
- Salary revisions for eligible employees will be synchronized with the appraisal cycle, contingent upon the organization's financial outlook and prevailing market conditions.
- Any employee who resigns will not be eligible for the performance appraisal cycle.

PMS Ratings

Rating Norms

5 – Far exceeds expectations

4 – Exceeds Expectations

3 – Meeting expectations

2 & 1 – Below expectations

Rated 3 & above:

Employees performance rated 3 and above, PMS is closed with appropriate salary revisions or promotions for eligible employees

Rated 2 & below:

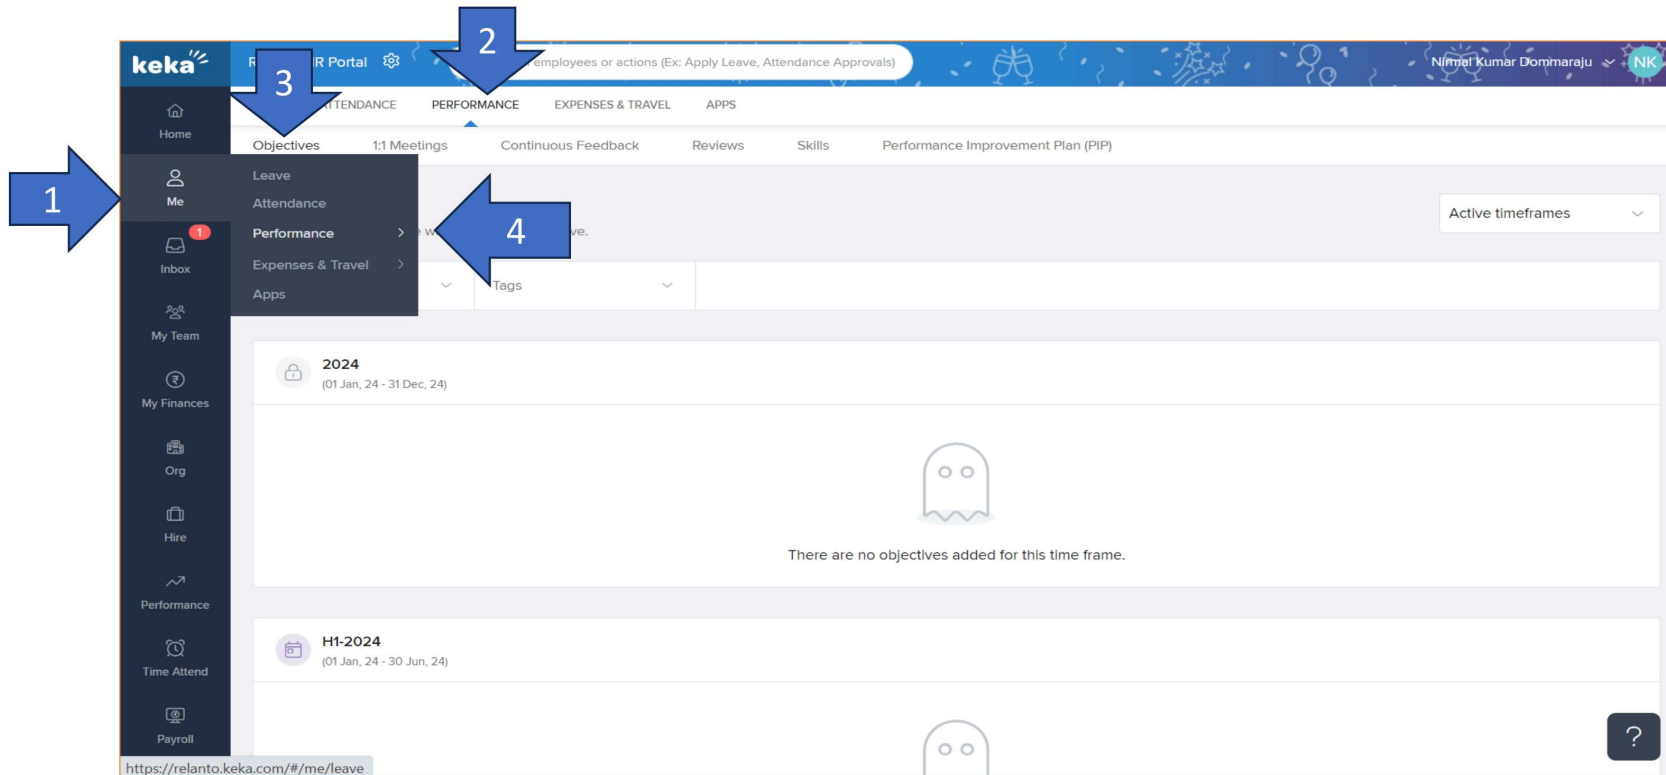

Employee's performance rated 2 and below will be advised to undergo the Performance Improvement Plan. In case, the employee does not improve his performance during the PIP period and gets a rating below 3, it will result in termination of services from the Company.

PMS in KEKA

Objective Settings H1-2024

To set and manage objectives.

- Go to the **Me (1)** section and click on **Performance (2)**.
- Under **Performance**, you will be directed to the **Objectives (3)** tab.
- Under **Objectives**, there are two sections: **My Objectives (4)** and **Department Objectives and Company Objectives**.

Objective Settings H1-2024

Time Frame and Add objectives.

- Select **H1-2024** Time Frame
- Click on **Add Objectives**

H1-2024

(01 Jan, 24 - 30 Jun, 24)

There are no objectives added for this time frame.

You can add objectives from here

+ Add objective

Adding my Objectives: Key Results

- An overlay window will pop up. You can state your objective under **What do you want to achieve? (1)**. Additionally, you can add tags to help you categorize all your objectives. Now, in the **+Add description (2)** text box, you may choose to type in more details about the same.
- Now, click on the **Metric type (3)** drop-down and decide how you want the progress of your objective to be measured, i.e., as a percentage, or as completed/not completed, or user-defined. You can also add the **Start Value** and **Target Value**. Key Results are the measures and milestones that indicate how you know you will accomplish your Objective.

The screenshot shows the 'Create Objective' form with three numbered blue arrows indicating the steps:

- 1** points to the 'What do you want to achieve?' text input field, which contains 'Test Objective'. A 'Choose template' link is to the right.
- 2** points to the 'Description (Optional)' text area, which is empty. A '-Hide Description' link is to the right.
- 3** points to the 'Metric type' dropdown menu, which is currently set to 'Percentage'.

Below the 'Metric type' dropdown, there are input fields for 'Start Value' (0) and 'Target Value' (100). To the right is a 'Metric name (optional)' dropdown set to 'Metric name'.

Below these are the 'Objective type' (set to 'Individual') and 'Time Frame' (set to 'H1-2024') sections. The 'Start date - End date' is set to '1 Jan 2024 - 30 Jun 2024'.

At the bottom, there is a checked checkbox for 'Include in review' and a '+ Add Key result' link.

The bottom of the form has three buttons: 'Cancel', 'Save As Draft', and 'Publish'.

Adding my Objectives

- Ensure the **Time Frame is H1-2024 (1)**
- **Start date - End date (2)** displays the time frame you have already chosen during setting up the initial objective, if you wish to, you can edit the time frame for the particular key result over here.
- Now, you can select **+ Add Key-result** again if you wish to add more key results.
- If you wish to save your progress, click on **Save As Draft (3)**, or once you have finished configuring the key results, click on **Publish (3)**.

The screenshot shows the 'Create Objective' form with the following fields and actions:

- What do you want to achieve?**: Text input field containing 'Test Objective'. A 'Choose template' link is on the right.
- Description (Optional)**: Text area with a '-Hide Description' link on the right. Below it is a rich text editor with icons for bold, italic, underline, bulleted list, numbered list, and link.
- Metric type**: Dropdown menu set to 'Percentage'.
- Start Value**: Input field with '0'.
- Target Value**: Input field with '100'.
- Metric name (optional)**: Input field with 'Metric name' and a dropdown arrow.
- Objective type**: Dropdown menu set to 'Individual'.
- Time Frame**: Dropdown menu set to 'H1-2024'.
- Start date - End date**: Date range input field showing '1 Jan 2024 - 30 Jun 2024' with a calendar icon.
- Include in review**: Checked checkbox.
- Bottom bar**: Contains 'Cancel', 'Save As Draft', and 'Publish' buttons.

Three blue arrows with numbers indicate the steps:

- Arrow 1 points to the 'Time Frame' dropdown.
- Arrow 2 points to the 'Start date - End date' input field.
- Arrow 3 points to the 'Save As Draft' and 'Publish' buttons.

Sample Objectives

Software Engineer

Objective – Improve The Overall Performance Of The Application

Developed

Key Result 1: Reduce the number of bugs by 10%

Key Result 2: Achieve 30% reduction in run time warnings

Key Result 3: Increase stability of performance from 25% to 35%

Objective – Improve Procedure For Testing

Key Result 1: Increase unit test coverage to 75% of code

Key Result 2: Revisit all open issues from 6 months & reduce the number by 10%

Key Result 3: Limit the number of bugs reported by end-users per release to 3

Tester

Objective – Increase Efficiency Of QA Process

Key Result 1: No critical bugs to be open 1 week before release date

Key Result 2: Improve testing coverage from ___% to ___%

Key Result 3: Discover atleast ____ bugs every month

Objective – Implement 0 Bugs Policy

Key Result 1: Ensure 0 critical issues on production

Key Result 2: Write detailed report for every high severity issue found during production

Technical Architect

Objective – Monitor The Smooth Working Of The Company's Computer

Network

Key Result 1: Check and update company software every fortnight

Key Result 2: Reduce start up time by ___ seconds

Key Result 3: Reduce the number of technical issues by 10%

Key Result 4: Introduce atleast one new innovation every quarter to the existing technology

Adding Key Result

- Now, Add Key Result with the description.
- You can make any desired changes if needed and click on **Save As Draft** if you wish to save your progress and continue configuring at a later time, or once you have finished configuring, click on **Publish**.

Objectives approval by Dotted line & reporting manager

- Once you have published your objectives, they will be sent for review to the respective managers and will show as pending.
- Manager will be able to approve the objectives of his/her team members under Inbox Objectives approval as shown below.

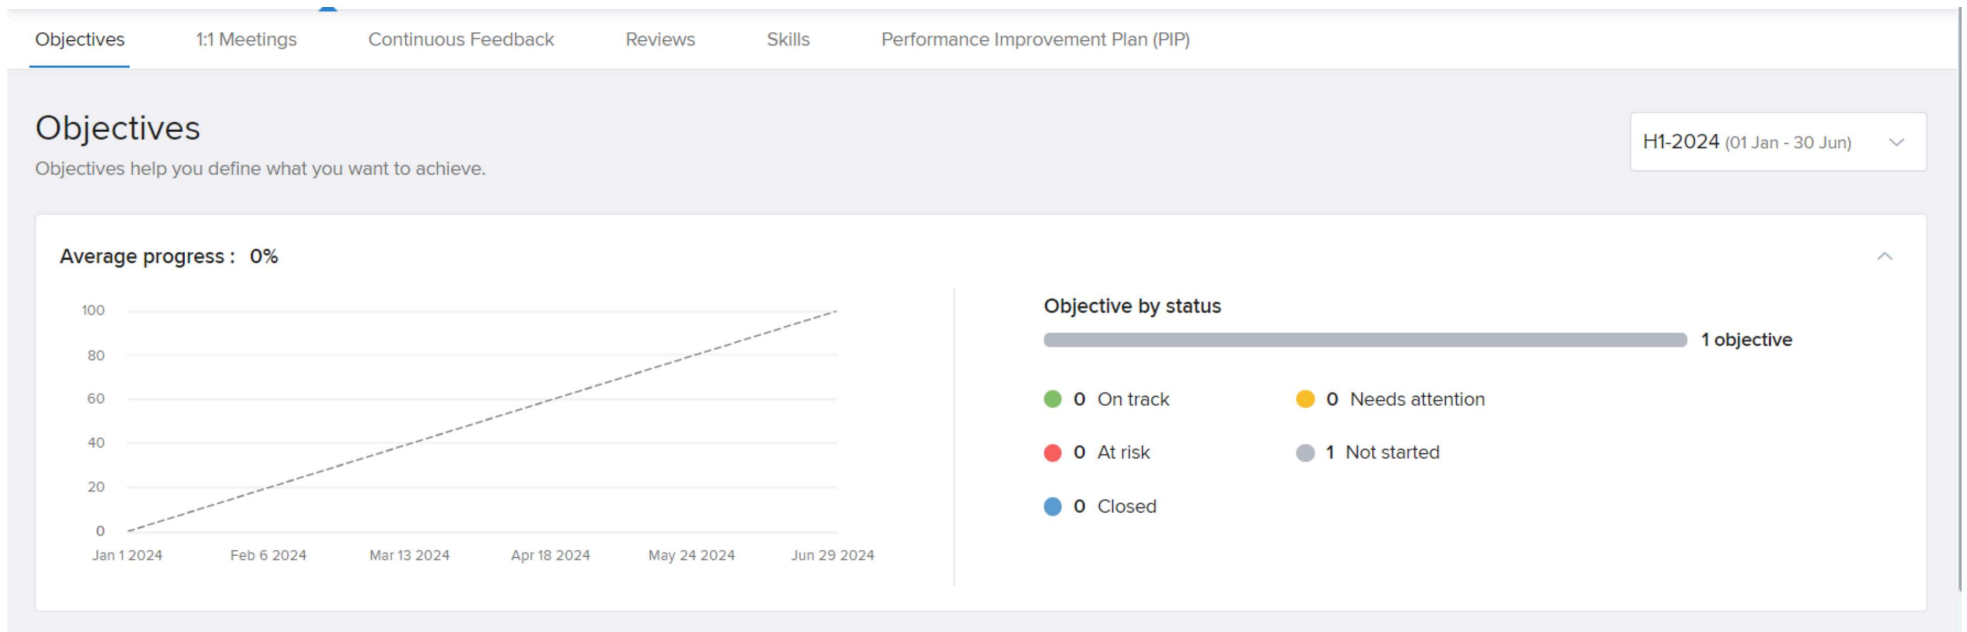

The screenshot displays the Relanto HR Portal interface. On the left is a dark sidebar with navigation icons for Home, Me, Inbox (with a red notification badge), My Team, My Finances, Org, Hire, and Performance. The main header area includes the 'keka' logo, 'Relanto HR Portal', a search bar, and the user name 'C Pradeep'. Below the header, there are tabs for 'TAKE ACTION (2)', 'NOTIFICATIONS', and 'ARCHIVE'. The 'TAKE ACTION (2)' tab is active, showing a 'PENDING TASKS' section with 'Objectives approval (1)' and 'Performance Reviews (1)'. The 'Objectives approval (1)' task is expanded, showing a list of objectives for 'Nirmal Kumar Dommaraju' under the heading 'OBJECTIVES'. The list includes 'Objectives for H1-2024'. To the right of this list is a detailed view of the 'Objective Approval' for Nirmal Kumar Dommaraju, requested on Mar 1, 2024, at 9:51 am. This view shows a 'Test Objective (New)' with a progress bar from 0% to 100%, and 'Key-results' including a 'Test Key Result (New)' also from 0% to 100%. At the bottom of this view, a green checkmark indicates the status 'Skipped due to no approvers assigned to employee' as of Mar 1, 2024, at 9:51 am. At the bottom right of the main content area, there are 'Approve' and 'Reject' buttons.

Objectives- Approve/ Reject

The screenshot displays the Relanto HR Portal interface. The top navigation bar includes the 'keka' logo, 'Relanto HR Portal', a search bar, and user information 'C Pradeep' with a profile icon 'CP'. The left sidebar contains navigation links: Home, Me, Inbox (with a red notification badge '2'), My Team, My Finances, Org, Hire, and Performance. The main content area is divided into three sections. The 'PENDING TASKS' section on the left shows 'Objectives approval (1)' and 'Performance Reviews (1)'. The central 'OBJECTIVES' section, filtered by 'NEWEST', lists a task for 'Nirmal Kumar Dommaraju' titled 'Objectives for H1-2024', marked as 'an hour ago'. The rightmost section, titled 'Objective Approval', shows details for the selected task: 'Test Objective (New)' with 'Start : 0 % | Target : 100 %', a 'Key-results' section with 'Test Key Result (New)' (also 'Start : 0 % | Target : 100 %'), and a status message 'Skipped due to no approvers assigned to employee' dated 'Mar 1, 2024, 9:51 am'. At the bottom right of this section are 'Approve' and 'Reject' buttons, with a help icon '?' next to them.

Objectives Status

- Here you can view the **Average Progress** and **Status** of all objectives briefly.

The text 'Thank You!' is displayed in a large, bold, white sans-serif font. To the left of the text is a solid orange vertical bar.

Thank You!
