Objectives of Performance Review

Assess	Identify	Align	Enhance	Foster
Evaluate employee performance against predefined criteria.	Highlight areas where improvement is needed.	Ensure individual objectives align with organizational priorities.	Strengthen dialogue between employees and management.	Support career development through targeted feedback and training.

Performance Review: **Process**

*Based on eligibility criteria

Evaluation Period & Eligibility

- The performance review cycle at Relanto is **half-yearly**.
- Accordingly, the Appraisal cycle will also be conducted half-yearly in the months of July & January.
- The employee's probation should be confirmed with a minimum tenure of 10 months in the company at the time of review cycle, to be eligible for appraisal.

E.g.:

1. The employee joins on January 1st, 2025, they will ideally complete their 6-month probation period by July 1st, 2025.
 2. They will complete 10 months by November 1st, 2025.
 3. In this scenario, the employee would be eligible for a salary increment according to the company's policy as of the January 2026 review cycle. This means that their eligibility for any salary increase based on the performance ratings would be assessed during the January 2026 review cycle.
- Any employee who resigns will not be eligible for the appraisal cycle.
 - An employee is eligible for a promotion only after completing a minimum of 2 years with the company.
 - Salary revisions for eligible employees will be synchronized with the review cycle, contingent upon the organization's financial outlook and prevailing market conditions.
 - Employees must be in good standing with the company to be eligible for performance appraisals and promotions.

Half Yearly Review: Goals Score

- The set goals and competencies at the start of the review cycle, will be rated by self and manager(s) to arrive at the overall performance of the employee.
